

Kangaroo Island Wilderness Trail

Distance: end to end - 60km Duration: 5 Days / 4 Nights

Pick up and Drop Off:

Departure time for your tour will be confirmed closer to the date depending on the ferry schedule.

We do our pick up from King William Street Bus and Coach pick up/drop off area fairly early on the morning of the departure. The Bus and Coach pick up/drop off area is on the corner of King William St and Rundle Mall in front of Charlesworth Nuts, which is opposite to the Haigh's Chocolate shop in Rundle Mall.

Welcome to your next adventure with Inspiration Outdoors. Here are a few details to help you get prepared...

Departure City: Adelaide

Where should I stay the night prior to the tour?

With an early departure, we recommend a night in Adelaide for those coming from interstate or overseas. We recommend to our guests the following hotels. All the below hotels are within easy walking distance from the pick up location.

- Mercure Grosvenor Hotel Adelaide (North Terrace)
- Ibis Styles Adelaide Grosvenor (North Terrace)
- Adelaide Paringa Motel (Hindley St)

****First day reminder****

It's a 1.5 - 2hr drive to the ferry over to Kangaroo Island. Departure time from Adelaide will be confirmed closer to your tour date as the ferry schedule fluctuates. Based on this we will either do an introductory walk on the mainland or over on Kangaroo Island before settling into our accommodation for the first night. You should be dressed in your hiking attire on the first day and have a water bottle ready to go. Your luggage will be stowed in a trailer and accessible upon reaching the accommodation. There is also an opportunity to purchase alcohol in Penneshaw for the tour. There are no big shops on the western side of the island, it is very remote so any supplies will need to be purchased prior to us making our way across the island.

Washing facilities?

There are laundry facilities at your accommodation in the western side.

Phone coverage

There is free WIFI and phone reception at the Seafront and Mercure. However, at our accommodation on the western side there is only Telstra phone reception as it is quite remote. We carry satellite phones for emergencies only. If a family member or friend needs to get in contact with you while on tour please get them to call the office on 08 6219 5164 during office hours, or Simons mobile on 0411 813 117 out of office hours. They could also reach out to the reception at the accommodation, which is Seafront 1800 624 624 and the Mercure (08) 8553 7053.

What should I pack?

- Day-pack – with a thick waist strap to help take some weight off your shoulders. In wet weather, a waterproof cover or a bin bag to wrap your belongings in can be handy
- Shorts/long pants and shirts for walking – as many sets as you wish! Quick-dry material is best, especially for trousers. Don't wear jeans walking.
- Socks – whichever thickness you're comfortable walking in and as many pairs as you like
- Boots/shoes for walking (make sure you wear them in well – see note on footwear below)
- Windcheater or lightweight jumper for walking
- Waterproof jacket*
- Sun protection – hat (secure fitting and/or with chin strap), sun cream, sun glasses
- Casual clothes for evenings
- Fleece jacket, gloves, beanie and/or thermals (can get quite cold in the evenings and early mornings, depending on the time of year)
- Torch/headlamp (can be handy when twin sharing for getting up at night and for going back to your room after dinner)
- Any preferred first aid supplies – such as your favourite blister treatment! (Your guide will carry a full first-aid kit)
- Water bottle/s or camelback – 2 to 3 litre capacity
- Waterproof pants. Some people love them and some hate them – personally, we don't often wear them but there have been times where they have been invaluable.
- Bathers and light towel (there may be the odd swimming opportunity)
- Head fly net (unlikely that you will need one but you never know when it's fly season)
- Camera and charger/batteries
- Gaiters for snake bite protection are recommended unless you are wearing long pants and long socks. They're also good for keeping sand and rocks out of your shoes.
- Sock protectors (great to use instead of gaiters if you want to keep sand and rocks out of your boots)
- Sandals/casual shoes for relaxing at the accommodation at the end of the day
- A lunch container (or Beeswax food wrapper), to avoid squashing your sandwich or if you choose to only bring a salad (with freezer brick and fork if desired) – glad wrap will be provided otherwise
- Snacks and alcohol – there is only the possibility to purchase alcohol or snacks in Penneshaw on Day 1. Some people like to have some snacks for the trail including muesli bars, nuts, lollies or other special things.
- Walking poles (can come in very handy when walking on sand and on steep up and downhill sections)

*You have to expect some bad weather at any time of the year so bring wet weather gear even if the forecast is fine.

Optional items

Getting ready for your walk...

There is no such thing as an 'easy day' on this walk. There are some long days, lots of uneven and rocky sections on really hard surfaces, little sand walking and some steep up and downhill sections. However, the walk has been designed to make it achievable to those of reasonable fitness by the fact that you only carry a daypack and return to comfortable accommodation each evening to rest your legs for the next day.

Level: Moderate

Any questions?
Call us on 08 6219 5164

You will be surprised just how your fitness will improve throughout the tour! A positive mental attitude is most important. If you focus on the scenery, the company and the moment, not on the kilometres, then you find yourself reaching your destination with little problem. If you have done some training prior to the walk you will enjoy it all the more.

The best way to prepare physically for the trip is to walk, walk and walk some more – over a variety of terrain. Try to walk frequently. Even walking around your suburb will get you walk-fit. By the start of the tour you should be able to comfortably walk 15km, and try and do a few 20km walks on rough tracks.

We know that this type of preparation is difficult to fit into a busy schedule. If you don't have the time to do long walks, we recommend doing regular stair walking sessions. Walking small distances frequently helps a lot as well. For instance, walking 3 - 5km four times a week, and 8km once a week, is a great help. If you're doing short training sessions, make sure you get yourself puffed and sweaty. Otherwise you won't benefit from your efforts. And start walking in the shoes you will wear on the walk now.

Looking after your feet

Footwear is very personal and we prefer people wear what feels comfortable. Walking shoes shouldn't be too tight, but your foot shouldn't slip around in them either. If you're buying new shoes, go shopping after a long walk so your feet are a bit swollen. The best places to buy walking boots/shoes will have some sort of ramp that you can stomp up and down on and make sure there is no pressure on your toes and heels.

Boots can provide ankle support and help keep the sand out. Some hiking boots can be quite heavy. These are great for cold weather alpine hiking but they do tend to tire your legs quicker and heat your feet. There are plenty of lightweight boots available which are great for most Australian conditions.

You might prefer to wear sneakers on your walk. They do let in a lot of dirt though and tend to wear out quite quickly on the rough surfaces of a bush track. Sturdy sandals have proven to be a good substitute for shoes when feet have blistered, and for beach sections. You are welcome to bring two pairs and alternate.

The main thing is to make sure you know your footwear well – try them out in a variety of terrains and do a few long walks (15 – 20km) in them before the walk. We cannot emphasise enough that you have well worn in shoes or boots, good socks, and first aid for the prevention and treatment of blisters.

Preventing blisters: To prevent blister formation, we highly recommend using 'fixomull' or a similar tape on heels and toes where rubbing is likely to occur – ask for it at your pharmacy. Some walkers also wear two pairs of socks to

prevent blisters forming – a thin inner pair and a thicker outer pair. Others swear by Hikerswool applied between toes and over pressure points.

The principle of blister prevention is to transfer any friction, caused by the movement of your foot inside your shoe, onto the fixomull tape or the extra sock, rather than onto your skin. If you know that your feet have a tendency to blister in certain spots, tape them before you walk. We are happy to help you with this. If you feel any rubbing or a 'hot spot' whilst walking, the best thing to do is stop and do something about it. In all instances, prevention is better than cure. Blisters are very difficult to dress so as to be able to walk comfortably.

Treating blisters: Blister treatments vary and you may have your favourites. The second skin variety seems good, though you will also need good tape to keep it in place. Second skin treatments often have a sterile gel pack that pads and protects the blister from further friction. They can also be used as a (more expensive) preventative measure. Blister Block or Compeed are examples of this type of dressing.

A thick moleskin type plaster is also good to carry for blister treatment. Holes can be cut into moleskin to fit around a blister and a plaster put on top of that. This way there is little pressure put on the blister itself.

Walking poles are very popular these days – especially the lightweight aluminium shock absorbing type. They help to take quite some pressure off your knees going downhill and can help you get uphill too. They also help with achieving a good walking posture. However, if you have good knees and strong legs you may not need them.

A lot has been published about the pros and cons of walking poles – we're sure you can get the full story from the net. If you do choose them it's worthwhile practicing how to use them correctly so you get their full advantage. Try to use your arms as much as possible – by placing the poles opposite arm to leg and applying pressure as you step forward. Find someone knowledgeable in the shop where you purchase them to give you some tips. We can always help you when on tour.

Just in case...

We hope that you do not need to cancel your booking. However, if you do, our cancellation fee, based on the notice given prior to the departure date, is:

Kangaroo Island Wilderness Trail Tour

Any questions?

Level: Moderate

Call us on 08 6219 5164

- 85 days or more, you will be refunded all monies paid, less a \$50 administration fee.
- 42 to 84 days prior to departure, you will lose your deposit
- 28 to 41 days: 25% of full tour cost
- 14 to 27 days: 50% of full tour cost
- less than 14 days: 100% of full tour cost, no refund

If you have any concerns about cancelling, please take out travel insurance covering this contingency. This policy will be adhered to despite the most compelling and compassionate circumstances.
